📍 Pune-52, Maharashtra

— TECHNICAL SKILLS

- Languages: Python, Java, C (Basic)
- Frameworks: Django, Spring Boot
- Frontend: HTML, CSS, JavaScript, Bootstrap
- Databases: PostgreSQL, MySQL, MongoDB
- Cloud & DevOps: AWS, Docker, GCP
- Tools & Design: Git, GitHub, Figma

— PROJECTS

Plants World – Urban Jungle Web Store (Live Project)

- Designed a plant e-commerce UI using Figma, HTML, CSS, and JavaScript, featuring product listings, categories, a gallery, and form interfaces.
- View Project: https://yash-dhadve.github.io/PlantWorld/

Stock Data Analysis & Visualization Platform

- Built a Django-based web application for historical stock market analysis using Supabase (PostgreSQL) and y-finance, featuring a custom authentication system with OTP verification via Google SMTP.

Authentication & User Management System (In Progress)

- Developing a reusable Django-based authentication system with secure user registration, password hashing, session management, and OTP-based verification via Google SMTP.

SUMMARY

Web Developer and **Python Developer** with hands-on experience in building full-stack web applications using Django, HTML, CSS, and JavaScript. Strong foundation in backend development, database design, and cloud deployment. Passionate about creating scalable, user-friendly solutions and continuously improving technical skills.

EDUCATIONAL QUALIFICATION

BACHELOR OF COMPUTER SCIENCE

Kaveri College of Arts, Science, and Commerce

2022 - 2025

CERTIFICATIONS

- Java Full-stack Development (Nirmaan Organization)
- Python Essentials (Cisco Networking Academy
- Prompt Engineering (Let's Upgrade)
